

## Tips and tricks for I-Pad users

The native "Files" app on iOS restricts interactive features for security reasons. Recommended solution is Download the free app "**Documents by Readdle**" (or similar) from the App Store and Tap the HTML file to launch the player .

Aletrnatively you follow the instruction below to get away with the third pary App.

On iPad → Shortcuts →  New Shortcut

- ◆ Action 1: Text

Paste entire content of Ipad\_RSP\_V4\_b64.txt

Do NOT edit, trim, or wrap lines

This action holds your frozen player.

- ◆ Action 2: URL

In the URL field, type exactly:

data:text/html;base64,

Then tap the variable picker and insert Text immediately after the comma.

Result (visually):

data:text/html;base64,[Text]

 No spaces. No newlines.

- ◆ Action 3: Open URLs

Input: the URL from Action 2

Browser: Safari (default) [or chrome]

- ◆ Shortcut Name

Rig Samhita Player V4

Follow the same procedure for V3
